Described as “a visionary thinker with a rare intellect,” Sinek teaches leaders and organizations how to inspire people. With a bold goal to help build a world in which the vast majority of people go home everyday feeling fulfilled by their work, Sinek is leading a movement to inspire people to do the things that inspire them.

He has devoted his life to sharing his thinking in order to help other leaders and organizations inspire action.

He is best known for popularizing the concept of Why and for the talk he gave on the subject that became the third most watched talk of all time on TED.com.
