

The Florida Association of Student Councils (FASC) has a comprehensive awards program that is administered by the Florida Association of Student Council Advisors (FASCA). It includes awards for outstanding projects, overall council performance and individual awards. Membership in the FASC is open to both middle and high schools and there are separate awards packets for both middle and high schools.

All council awards (Outstanding Projects and Medallion Council) are passed on performance and the size of a school's student body. Student council advisors present at the annual FASC state convention judge projects and Medallion Council submissions.

The awards presented to individuals (Principal, Advisor and Students of the Year) are submitted to the FASC office in advance and are selected from the nominees by a committee established by the Executive Director.

The entire program is reviewed annually by the FASCA at the state convention. The entire program can be seen at fasa.net/fasc.
